Chapter 1: Teaching with Technology: Introducing TPACK / 1

A Conversation with The Professor: Preparing to Teach 21st Century Learners / 4
Characteristics of 21st Century Learners / 5
Teaching with Technology: Not Your High School Computer Class! / 6
A Bit of TPK (Technological Pedagogical Knowledge) / 11
 Understanding Planning Lessons that Integrate Technology / 11
 Understanding Implementation of Lessons that Integrate Technology / 14
A Bit of TCK (Technological Content Knowledge) / 15
 The Family of Digital Tools / 16
 TCK and Activity Types / 20
And, Finally, a Bit of TK (Technological Knowledge) / 22
 Basic Skills / 23
 So, How Do We Begin? / 24
 Rules for Newbies / 24
 Links to Web Sites Referenced in the Chapter / 26
 Additional Resources / 27
 Recommended Reading / 27
 References / 28
 Appendix A: TPK, TCK, and TK Characteristics / 30
 Appendix B: Information for Ontario Teachers / 31

Chapter 2: The Instructional Design Process for Teaching with Technology / 33

A Conversation with The Professor about Instructional Design / 36

TPK: Backwards Design / 37

TPK: The Lesson Cycle—Selecting and Sequencing the Learning Activities in a Lesson Design / 38

Structuring a Direct Instruction Lesson / 40

TCK: Adding the Technology Component: Matching Activity Types to the Appropriate Learning Outcome / 43**IDEA Section for Building TPK / 44**

Activity Types for the Direct Instruction Model of Teaching / 44

Lesson Example Using the Direct Instruction Model of Teaching / 46

Other Scenarios for Direct Instruction Lessons / 54

Using eBooks in Instruction / 54

Using Drag and Drops in Instruction / 56

To Wrap It Up / 57

Links to Web Sites Referenced in the Chapter / 57

Additional Resources / 58

Recommended Reading / 59

References / 59

Appendix A: Virtual Field Trip Example / 60

Appendix B: Lesson Plan Template / 62

Chapter 3: Information at Your Fingertips / 65

Conversation with The Prof: If the Learning Outcome Includes Locating or Collecting Information/Data / 67

TK: Technological Knowledge: Internet Savvy / 68

Copyright and Netiquette to Guide Internet Use / 68

Exploring Copyright / 69

Netiquette / 70

Cyber Safety / 71

TK: Evaluation of Web Resources for Reliability / 72

More TK: Web 2.0 / 74

TPK: Using Internet Tools in Instruction / 80

Sequencing Activities to Teach Internet Searching Skills / 80

Sequencing Activities that Explain, Extend, Create, and Apply / 84

TCK: An Introduction to Center-Based Instruction and Cooperative Group Work / 84

TPK: Structuring a Center-Based Cooperative Group Work Lesson / 85

IDEA Section for Building TPK / 87

Activity Types for Center-Based Cooperative Group Work / 87

Lesson Example Using Center-Based Cooperative Group Work / 89

Other Scenarios for Center-Based Cooperative Group Work Lessons / 96

Linklist Centers / 96

Wiki Centers / 97

To Wrap It Up /98

Links to Web Sites Referenced in the Chapter / 98

Additional Resources / 101

Recommended Reading / 101

References / 101

Skill Sets for Teachers / 103

Internet Skills Checklist / 103

Blogging Skills Checklist / 103

Wiki Skills Checklist / 104

Twitter Skills Checklist / 104

Appendix A: Sample Works Cited Document / 105

Appendix B: Fair Use Limitations / 107

Appendix C: Copyright Notes Sheet / 108

Chapter 4: Communication and Project-Based Learning / 109

Conversation with The Prof: If the Learning Outcome Includes Creating a Project / 111

TCK: Project-Based Learning / 112

TPK: Assessing Project-Based Learning / 114

Creating Checklists / 114

Rubrics vs. Checklists / 114

Tips for Creating Rubrics / 115

Additional assessment tools for teachers / 117

TCK: Reading and Writing to Enhance Project-Based Learning Activities / 119

Reading / 119

Writing / 121

TK: Using Technology Tools to Support Project-Based Learning / 124

TPK: Structuring a Project-Based Collaborative Group Lesson / 127

IDEA Section for Building TPK / 129

Activity Types for Project-Based Learning Lessons / 129

Lesson Example Using Project-Based Learning / 139

Other Scenarios for Project-Based Learning Lessons / 148

Using Digital Cameras and Writing Alphabet Books / 148

Creating a Podcast for Word Problems in Math / 149

To Wrap It Up / 150

Links to Web Sites Referenced in the Chapter / 150

Additional Resources / 154

Recommended Reading / 155

References / 155

Skill Sets for Teachers / 157

Word Processing Formatting Skills Checklist / 157

Desktop Publishing Skills Checklist / 158

Chapter 5: Problem-Based Learning and Research / 159

Conversation with The Prof: If the Learning Outcome Includes Research AND Problem-Based Learning / 161

TCK: Problem-Based Learning / 162

TPK: Teaching the PBL Process to Students / 163

Two Online Problem-Based Activities / 165

WebQuests / 165

Web Inquiry / 167

TCK: An Introduction to Problem-Based Learning and Collaborative Group Work / 168

TPK: The Structure of a Problem-Based Lesson / 169

IDEA Section for Building TPK / 170

Activity Types for Problem-Based Learning Lessons / 171

Lesson Example Using Problem-Based Learning / 173

Other Scenarios for Problem-Based Learning Lessons Using Collaborative Group Work / 184

Using Survey Data / 185

Using Video-Based Cases / 186

To Wrap It Up / 187

Links to Web Sites Referenced in the Chapter / 187

Additional Resources / 188

Recommended Reading / 189

References / 190

Skill Sets for Teachers / 190

Spreadsheet Skills Checklist / 190

Web Page Creation Skills Checklist / 191

Chapter 6: Multimedia and DGI: More Project Creation / 193

Conversation with The Prof: If the Learning Outcome Includes Creating and Using Multimedia / 195

TCK: Benefits of Multimedia in Instruction / 196

TCK: Digital Storytelling / 199

More TCK: Digital Storytelling Framework / 200

TPK: S-SWITCHES and the Digital Storytelling Framework / 202

TCK: An Introduction to DGI Lessons / 204

TPK: Structuring a DGI Lesson / 206

IDEA Section for Building TPK / 207

Activity Types for DGI and Digital Storytelling Lessons / 207

TPK: The Digital Storytelling Categories / 208

TK: Multimedia Skills to Support Digital Storytelling / 217

Lesson Example Using DGI and Digital Storytelling Activities / 223

Other Scenarios for DGI Lessons / 233

Creating Oral Histories for Grade One / 233

Using PowerPoint and Conceptual Dictionaries in Math / 234

To Wrap It Up / 235

Links to Web Sites Referenced in the Chapter / 235

Additional Resources / 237

Recommended Reading / 238

References / 238

Skill Sets for Teachers / 240

Draw/Paint Skills Checklist / 240

Manipulating Image, Text, and Sound File Skills Checklist / 240

Video Editing Skills Checklist / 241

PowerPoint Skills Checklist / 241

Presenting Skills Checklist / 242

Appendix A: Video and Photograph Permission Template / 243

Chapter 7: Visualizing Concepts / 247

Conversation with The Prof: If the Learning Outcome Includes
Brainstorming, Pre-writing, or Mapping of Concepts / 249

TCK: What are Concept Maps? / 250

TCK: Why Teach Concepts Through Visual Learning Techniques? / 251

Graphic Organizers / 252

Roundhouse Diagram / 255

Storyboarding / 257

Virtual Worlds: Teaching with Simulations and Games / 258

TPK: Teaching with Visualization Technology Tools / 259

TCK: An Introduction to Cooperative Group Work / 260

IDEA Section for Building TPK / 262

Lesson Example of Direct Instruction that Incorporates Concept Maps / 262

Other Scenarios for Lessons that Include Concept Maps / 269

Using Sequence of Event Maps to Develop a Choose Your Own Adventure Story / 269

Using Brainstorming Webs in History / 270

To Wrap It Up / 271

Links to Web Sites Referenced in the Chapter / 271

Additional Resources / 273

Recommended Reading / 273

References / 274

Skill Sets for Teachers / 275

Concept Mapping Skills Checklist / 275

Appendix A: Storyboard Template / 277

Chapter 8: MORE TPK: Practical Tips for Lesson
Implementation / 280

Conversation with The Prof: Preparing to Teach a Tech-Enhanced Lesson / 282

Access / 283

Policies for Classroom Computer Use / 283

Placement of Computers in the Classroom / 285

One Computer in the Classroom / 286

More Than One Computer? / 288

A Note about the Computer Lab / 289

Portable Learning Devices / 290

A Final Thought from the Professor / 290

Links to Web Sites Referenced in the Chapter / 291

Recommended Reading / 292

About The Authors

The orientation of this book blends the interests and experience of the two authors, in order to assure you that what is purposed in this book would be practical for you to implement. The content of the book is informed by the experiences of many years of working with teachers in the classroom over the years.

Candace Figg is an assistant professor at Brock University in St. Catharines, Ontario, and a native Texan. She spent 22 years occupied in different facets of public education in Texas—15 years as an elementary teacher, librarian, and music teacher, with 7 years as a visiting teacher, substitute teachers, and parent volunteer. She completed her PhD at the University of Texas at Austin, with a specialization in Instructional Technology. She considers herself an elementary school teacher, but enjoys her career as a university professor because she has the opportunity to work with so many creative and bright young teachers. Her passion is helping pre-service and in-service teachers use technology in their own classrooms so that teaching is relevant to the needs of learners today. She teaches the *Teaching and Learning with Technology* methods course in the Teacher Education Department at Brock.

Jenny Burson has her original certification in Social Studies and Computer Programming at the secondary level. Emphasis in her terminal degree from the University of Houston included a specialization in Instructional Technology. She taught integrating computers in the classroom courses at the University of Texas until she retired in 2003 due to a severe hearing loss. She has continued her research in mobile computing devices as well as teaching online. She currently designs curriculum and teaches online for LeTourneau University.
